

When you enter MYARC Advanced BASIC, the left margin is set to 1 and the right margin to 80. The top and bottom margins are set to 1 and 24 respectively. Changing Modes resets margins to the default for that mode.

Examples

100 CALL MARGINS(3,30,1,24)

Sets all four margins to the default value in Pattern Mode.

100 CALL MARGINS(1,40,1,24)

Sets the left, right, top and bottom margins to the extreme edges of the screen in the 40 column Text Mode (Graphics(2,1)). This is the default mode.
